SVENSKA GEOFYSISKA FÖRENINGEN

Tellus

A BI-MONTHLY JOURNAL OF GEOPHYSICS

Volume 28 · 1976

Printed in Sweden by

Almqvist & Wiksell, Uppsala 1976

Editor
B. BOLIN
Stockholm
Sweden

Executive Editor
M. SKÅRMAN
Stockholm
Sweden

Office of the Editor: Arrheniuslaboratoriet, Fack, S-104 05 Stockholm

Contents

Volume 28, 1976

NUMBER 1

HARSHVARDHAN and R. D. CESS: Stratospheric aerosols: Effect upon atmospheric temperature and global climate 1

V. D. KING and C. T. MAHER: The spatial distribution of salt particles at cloud levels in Central Queensland 11

K. C. CHAN, B. L. COHEN, J. O. FROHLIGER and L. SHABASON: Pittsburgh rainwater analysis by PIXE 24

V. G. ZDUNKOWSKI and K.-N. LIOU: Humidity effects on the radiative properties of a hazy atmosphere in the visible spectrum 31

B. RODHE: A study of the compensation principle and the Ångström Pyrheliometric Scale 37

P. B. STOREBØ: Small scale topographical influences on precipitation 45

H. H. DAVIES: A three-dimensional tidal problem 60

K. STEWARTSON and I. C. WALTON: On inertial oscillations in the oceans 71

O. PETRÉN and G. WALIN: Some observations of the deep flow in the Bornholm strait during the period June 1973–December 1974 74

Shorter Contribution

J. J. FALLER and D. L. PORTER: A note on eastern boundary currents in a laboratory analogue of the ocean circulation 88

Letters to the Editor

T. RANGARAJAN and S. GOPALAKRISHNAN: Study of the variations of ^{7}Be, ^{32}P, ^{90}Sr, ^{210}Pb and ^{210}Po in the troposphere 90

L. MARENCO and J. FONTAN: Réponse à C. Rangarajan and S. Gopalakrishnan 92

I. AXELROD, J. MILLER, D. PACK and J. THOMPSON: Concerning "NO_2 measurements on the Island of Hawaii" 95

M. A. GOLDMAN: Reply to Axelrod et al. 96

NUMBER 2

M.-K. MAK: A model study of the downstream variation of the lower trade-wind circulation 97

T. GAL-CHEN and S. H. SCHNEIDER: Energy balance climate modeling: Comparison of radiative and dynamic feedback mechanisms 108

N. E. Gaut, J. P. PEIXOTO, M.-F. WU and R. D. ROSEN: On interannual changes of angular momentum and zonal kinetic energy in the atmosphere 122

R. E. LIVEZEY and J. A. DUTTON: The entropic energy of geophysical fluid systems 138

G. E. B. KULLENBERG: On vertical mixing and the energy transfer from the wind to the water 159

B. GJEVIK and L. RØED: Storm surges along the western coast of Norway 166

R. RÜDIGER: Negative viscosity in the Gulf Stream? 183

Errata

S. SRIVATSANGAM: On the efficiencies of atmospheric processes 190

L. B. PEDERSEN and L. P. PRAHM: A method for numerical solution of the advection equation 191

NUMBER 3

S. SRIVATSANGAM: A problem in the parameterization of large-scale eddies 193

J. T. C. LIU and L. MERKINE: Energy integral

description of the development of Kelvin-Helmholtz billows 197

F. Baer and J. J. Tribbia: Spectral fidelity of gappy data 215

R. Salmon and M. C. Hendershott: Large scale air-sea interactions with a simple general circulation model 228

M. A. Estoque and K. Nimomiya: Numerical simulation of Japan Sea effect snowfall 243

J. A. Johnson: Modifications of coastal currents and upwelling by offshore variations in wind stress 254

N. G. Barton: An example of modification of ocean currents by bottom topography 261

K. Fischer: The optical constants of atmospheric aerosol particles in the 7.5–12 μm spectral region 266

R. Sequeira: Monsoonal deposition of sea salt and air pollutants over Bombay 275

Shorter Contribution

A. Creegan: The effect of coastline and continental shelf variations on a coastal current 283

NUMBER 4

W. Blumen and C. D. McGregor: Wave drag by three-dimensional mountain leewaves in nonplanar shear flow 287

R. A. Steedman and Y. Ashour: Sea breezes over north-west Arabia 299

B. Saltzman and S. Ashe: The variance of surface temperature due to diurnal and cyclone-scale forcing 307

B. Saltzman and S. Ashe: Parameterization of the monthly mean vertical heat transfer at the earth's surface 323

F. Tampieri and C. Tomasi: Size distribution models of fog and cloud droplets in terms of the modified gamma function 333

B. B. Hicks and P. S. Liss: Transfer of SO_2 and other reactive gases across the air-sea interface 348

L. P. Prahm, U. Torp and R. M. Stern: Deposition and transformation rates of sulphur oxides during atmospheric transport over the Atlantic 355

Shorter Contribution

V. V. Shirvaikar, V. Sitaraman and P. L. K. Sastry: A study of the wavelength exponent of aerosol scattering using Volz sunphotometer 373

Letters to the Editor

J. Egger: Comments on 'Zonal and eddy forms of available potential energy equations in pressure coordinates' by G. J. Boer 377

G. J. Boer: Reply to J. Egger 379

NUMBER 5

J. Egger: On the theory of the steady perturbations in the troposphere 381

E. Ruprecht and W. M. Gray: Analysis of satellite-observed tropical cloud clusters. I. Wind and dynamic fields 391

E. Ruprecht and W. M. Gray: Analysis of satellite-observed tropical cloud clusters. II. Thermal, moisture and precipitation 414

F. L. Ludwig: Sulfur isotope ratios and the origins of the aerosols and cloud droplets in California stratus 427

P. Winiger, O. Huber, J. Halter und B. Michaud: Monzentrationsmessungen von Be-7, Cs-137 und jungen Spaltfragmenten an der Tropopause 434

E. Vowinckel and S. Orvig: Experiments with the surface heat and water budgets of the Canadian Middle North 442

A. Creegan: A numerical investigation of the circulation in the Norwegian Sea 451

R. R. Long: Mass and salt transfers and halocline depths in an estuary 460

NUMBER 6

K. Hasselmann: Stochastic climate models. Part I, Theory 473

T.-C. Chen and A. Wiin-Nielsen: On the kinetic energy of the divergent and non-divergent flow in the atmosphere 486

D. Cruette: Experimental study of mountain lee-waves by means of satellite photographs and aircraft measurements 499

Yu. A. Romanov and N. A. Romanova: Some results of the surface wind and atmospheric pressure field analysis near the Equator 524

G.-D. Schupelius: Monsoon rains over West Africa 533

C. D. Keeling, R. B. Bacastow, A. E. Bainbridge, C. A. Ekdahl, Jr., P. R. Guenther, L. S. Waterman and J. F. S. Chin: Atmospheric carbon dioxide variations at Mauna Loa Observatory, Hawaii 538

C. D. Keeling, J. A. Adams, Jr., C. A. Ekdahl, Jr. and P. R. Guenther: Atmospheric carbon dioxide variations at the South Pole 552
